MEMORANDUM FOR SHARED RESOURCE CENTER DIRECTORS AND MANAGERS

SUBJECT: Guidelines for Implementing Secure Access to HPCMP Systems

At the present time, High Performance Computing Modernization Program (HPCMP) Shared Resource Centers (SRCs) are required to utilize Kerberos/SecurID as the only authentication method for access to SRC systems. As new systems and network capabilities are procured and fielded, new applications for secure access to the HPCMP systems may be identified or developed. The document provided at attachment 1 identifies the guidelines for development of or implementation of secure access to HPCMP systems.

If there are any questions regarding this notice, my point-of-contact is Mr. Douglas Butler. He can be reached by phone at (703) 812-8205 or by email at dbutler@hpcmo.hpc.mil.

Cray J. Henry
Director
High Performance Computing
Modernization Program
